Parker Knabb

Broadcast Engineering · AV Infrastructure · Systems Integration *Open to relocation & travel*
Marietta, GA & West Lafayette, IN | parker@parkerknabb.com | linkedin.com/in/parker-knabb | parkerknabb.com

EDUCATION

Purdue University | B.S. Computer Engineering, Minor in Communications *Expected May 2027*

EXPERIENCE

References available upon request

Insurance Institute for Business & Home Safety (IBHS) | Richburg, SC
Broadcast Systems Engineer *(Part-time, retained post-internship)* *Aug 2026 – Present*

- Author system documentation and provide ongoing support for the production system I built as an intern
- Leading deployment of a **Sennheiser Spectera** wideband RF system (replacing Shure MXW) and a **dark-fiber link** carrying 4K SDI and DAD antenna data across campus (in progress)

Broadcast Engineering Intern *May 2026 – Jul 2026*

- Redesigned the studio pipeline: moved primary switching from Livestream Studio 6 to a **Blackmagic ATEM**, repurposing OBS as a dedicated graphics and remote-guest engine
- Rebuilt control room rack and wiring; built a **Bitfocus Companion** control layer unifying ATEM, OBS, X32 audio, Sennheiser wireless, and Sierra Video router control
- Commissioned the new system for its first live event in **9 weeks** while legacy workflows ran other events
- Audited wiring docs for studio, Master Control, and chamber capture systems; recommended signal-flow fixes

Purdue Esports / Purdue RecWell | West Lafayette, IN
Broadcast Engineering Coordinator *(promoted from Technology Specialist, Nov 2024)* *Aug 2025 – Present*

- Lead a 3-person crew on **5 weekly varsity broadcasts**; **41 hours of airtime** in one month
- Designed and maintain an IP-based studio under tight space, budget, and infrastructure limits
- Integrated vMix, OBS, and Companion with **OMT** transport across segmented VLANs; run PXE boot for 22 PCs
- Author and maintain system and operations documentation for crew onboarding and troubleshooting

Purdue Hall of Music Productions | West Lafayette, IN
Production Staff *Aug 2023 – Present*

- Camera grip/utility for **Purdue football and basketball** productions (JVC cameras, Riedel Bolero)
- Camera operator for Purdue Grand Prix (2025, 2026)

GoTo Foods, Atlanta, GA | ***Enterprise IT Infrastructure Intern*** *May 2025 – Aug 2025*

- Deployed enterprise network hardware; automated FinOps and directory tasks in PowerShell/Python

GeorgiaFIRST Robotics: Peachtree Live | ***Technical Director & Producer*** *Oct 2022 – Apr 2023*

- Created and produced inaugural editions of commentary show for two FIRST Robotics Competition events (**2,000+ attendees**); ran and troubleshot the **Studio Technologies Dante intercom**
- Extended comms to roaming crew phones at zero cost via **Dante Virtual Soundcard** and TeamSpeak

SELECTED SHOW CREDITS

LEAP IMAG Show (student club)	Video Department Head & Crew Chief	Oct 2026
DreamHack Atlanta: Creator Hub	Livestream Technician	2022 & 2026
Disney Lorcana Challenge Indianapolis	Production Assistant	Jun 2026
LEAP EDM Show (student club)	LED Tech (NovaStar, 3 panel types)	Feb 2026
Purdue Varsity Glee Club tour	Audio Engineer (1,000+ audiences)	2026 – 27 season

TECHNICAL SKILLS

Transport & Networking: Fiber transmission, NDI, OMT, Dante / AES67, SRT, VLAN segmentation, PXE
Software & Programming: Bitfocus Companion, vMix, OBS, NovaLCT; Python, PowerShell, C/C++, SystemVerilog
Video & Switching: Blackmagic ATEM, Ross & Blackmagic switchers, Sierra Video routing, SDI, NovaStar processors
Cameras: Blackmagic Studio Camera 6K Pro, Micro Studio Camera 4K G2; Hitachi, JVC studio cameras
Intercom: Studio Technologies Dante (engineering); Clear-Com, Riedel Bolero, Green-GO (operation)
Audio & RF: Sennheiser Spectera & EW-DX, Shure ULX-S, AES50, X32 / M32, Yamaha consoles
Cabling: SDI & Ethernet termination
