EDUCATION

B.S. Computer Engineering | [Purdue University](https://www.purdue.edu) - West Lafayette, IN

GPA: 3.2 | August 2023 - May 2027

CERTIFICATIONS

CompTIA A+ | Apple Certified Support Professional

EXPERIENCE

Broadcast Systems Engineer | [Insurance Institute for Business & Home Safety](https://www.insuranceinstitute.com) | May 2026 - Present

- Redesign studio production pipeline, migrating the primary switcher role from Livestream Studio to an ATEM, enabling live hardware switching for the first time
- Architect a Bitfocus Companion control layer unifying OBS, ATEM, X32 audio, and Sennheiser mic control behind conditional logic
- Design a fiber-based remote production transmission system using existing dark fiber
- Retained on a part-time consulting basis beyond summer internship

Broadcast Engineering Coordinator | [Purdue Esports](https://www.purdue.edu/esports) | August 2025 - Present

- Lead a team of 3 students to produce high-quality broadcasts of 5 weekly varsity matches and special events
- Design, implement, and maintain an IP-based production studio with limited space, budget, and infrastructure
- Integrate a multi-tool broadcast pipeline spanning vMix, OBS, Bitfocus Companion, and OMT video transport across segmented networks
- Administer PXE boot software environment for 22 gaming PCs

Event and Video Tech | [Purdue Hall of Music Productions](https://www.purdue.edu/hall-of-music-productions) | August 2023 - Present

- Operate video equipment to ensure university special events run smoothly

Enterprise IT Infrastructure Intern | [GoTo Foods](https://www.gofoods.com) - Atlanta, GA | May - August 2025

- Developed software tools to automate Outlook distribution lists and cloud FinOps data in PowerShell and Python
- Assisted with deployments of enterprise network hardware and software
- Presented to company leadership on hardware/software lifecycle status

PROJECTS AND ORGANIZATIONS

- [Purdue Varsity Glee Club](https://www.purdue.edu/varsity-glee-club): Audio Engineer
 - Mix live sound for touring performances to audiences of 1000+
- [Georgia FIRST Robotics](https://www.georgiaFIRSTrobotics.com): Organized and produced [Peachtree Live](https://www.peachtreelive.com) commentary show
 - Improved the FIRST Robotics event viewing experience for 2000+ attendees

SKILLS

- Live production software: OBS, vMix, Bitfocus Companion
- AV over IP protocols: Dante, NDI, OMT, AES50
- Live production hardware: Firefly/Coleder/PixelFlex LED wall, NovaStar LED processors, Ross/Blackmagic switchers, broadcast cameras, X32/M32/Yamaha audio consoles
- Programming: C, C++, Python, SystemVerilog HDL
- Cloud infrastructure: Microsoft Azure, Cloudflare, Linux systems
